**Map2: Diversion from the West side**

This shows the alternative route via the Wix Road and then taking the Stones Green road towards Oakley and on from there. If heading East (to Harwich) then you could take this route or use the East side route in reverse to return to the other side of Wix. For traffic heading East (to Harwich etc.) the quickest route would probably be to take the Harwich Road West out of Wix to the A120 and then head East using the A120 to complete your journey.

**Map1: Diversion from the East side**

This shows the alternative route via the Oakley Road and then taking the Stones Green road back into Wix and on from there. If heading South then you could use the same route but head toward Beaumont out of Stones Green on the Wix Road.

For routes heading West it would be easier to return to the A120 and use the main road to the required destination.
